

Wal14 | Wall Mount

WFA: White Frost Acrylic

INSTALLATION INSTRUCTIONS

PRUDENTIAL LTG.

PRULITE.COM 213.746.0360

GENERAL NOTES

- Start all fixture row mounting from left to right.
- Depending on construction, reinforcement may be required behind walls at mounting locations.
- For power feed location, use horizontal handy box or flex conduit direct into fixture.
- For Continuous row mounting see layout of rows for dimensions.

FIXTURE MOUNTING

NOTE: Refer to mounting hole dimensions (see page 2) for free K.O. and support hole locations. 3" wide housing must be installed over flush mounted 4" square box with plaster ring, flush mounted single gang electrical box or flexible conduit directly fastened to 3/8" K.O.

1. Remove screws, end lens strap, lens and LED cover from fixture.
2. Mount first fixture to wall with support hardware (provided by others).
3. Place adjoining fixture against end of secured fixture. Loosely mount fixture to wall. Secure fixtures end to end with #8-32 x 1/2" screws and hex nut provided. Use 1/2" chase nipple (provided by others) for through wiring.
4. Attach left and right finish end plates with #8-32 pal nuts provided.
5. Make all wire connections in accordance with all local and national electrical codes.
6. Replace LED cover, lens and lens end straps (end of row only).
7. Discard center end lens straps and replace with joiner facia band (provided) and #8 x 3/8" existing screws.

WARNING: Ground fixture in accordance with local and national electrical codes. Failure to do so may result in serious personal injury.
