WALL PLATE INSTALLATION:

1. See row diagram or Prudential Lighting plan layout (if provided). Begin all row mounting from left to right facing wall surface (see arrows).
2. Mount wall plate to j-box (by others) or to structure surface (See figure 1). Depending upon wall construction reinforcement may be required at wall plate mounting locations.

Caulk around cast canopy with silicone compound sealant to assure water tight

1.

Pull all necessary wiring through wall plate below fixture

2.

Lift fixture and hang support bracket on cast canopy onto wall plate angle. Swing fixture down until it rests on wall/wires

3.

Make all wiring connections

4.

Swing fixture up and insert wire into j-box as necessary

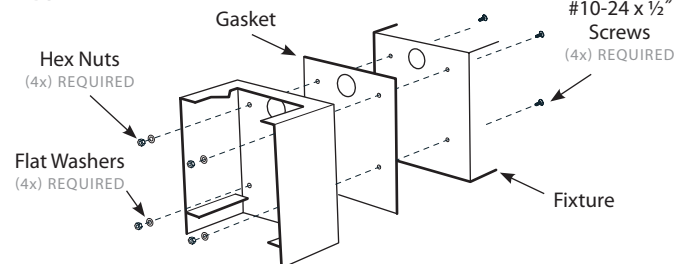

Swing fixture down with 1/8" hex allen

CONTINUOUS ROW:

NOTES: Refer to continuous mounting plan above for wall plate locations. Install one fixture section at a time, attempting to install fully assembled row may damage the weather tight seal

1. Remove all K.O.'s from fixture coupled ends. Peel backing from gasket and apply adhesive side to end of mounted fixture. Be sure all end rows align with gasket.
2. Lift fixture and hang cast canopy onto wall plate.
3. Secure fixture ends together with (4) #10-24 x 1/2" screws and hex nuts provided.
