

MICROCOVE: vs. leading competitor

A comparison of footcandle distributions on the ceiling

	watts/ft	cove height	ceiling height	ceiling width	average illuminance (ceiling)	power density (w/sf)	Max	Min
MicroCove at Low Output - 460 lm/ft	5	18"	9'	15'	25fc	.32	82fc	5fc
Leading Competitor - 320 lm/ft	5	18"	9'	15'	17fc	.33	58fc	2fc

MicroCove at Low Output (4000K, 5w/ft) – footcandle values on ceiling (every foot)

COVE	82	76	60	43	31	22	16	12	9	8	6	5	5	5	5
------	----	----	----	----	----	----	----	----	---	---	---	---	---	---	---

Leading competitor – (5w/ft)

COVE	58	50	38	28	20	14	9	7	5	4	3	3	2	2	2
------	----	----	----	----	----	----	---	---	---	---	---	---	---	---	---
