PRUDENTIAL LTG.

PRULITE.COM 213.746.0360

👤👤 MAY REQUIRE TWO PEOPLE TO INSTALL

NOTE: These instructions apply to round and square fixtures. Images may vary slightly based on fixture size.

CEILING **WALL**

2 1/2" Clear from Wall

⚠️ CAUTION:
Gaze surface installation is achieved by "shift and lock" technique. 2 1/2" of clearance from wall is needed to ensure that there is no interference.

FIXTURE SIZES:

	12"	18"	24"	36"	48"
ROUND LED	12 5/8"	19"	22 3/4"	34 7/8"	46 3/8"
SQUARE LED	13"	19"	22 3/4"	34 7/8"	46 7/8"

1) Mount Installation Template to Ceiling or Wall.

12" MOUNTING PLAN:

Holes for mounting brackets (x2). **DO NOT** use for fastening template to ceiling or wall

3"

18" & 24" MOUNTING PLAN:

4"

36" & 48" MOUNTING PLAN:

Holes for mounting brackets (x4). **DO NOT** use for fastening template to ceiling or wall

6 3/8"

6 3/8"

8" to J-Box

Use these holes to attach template to ceiling or wall (screws by others)

Attach Template to J-Box using J-Box screws

If mounting to wall, arrows **MUST** point to floor.

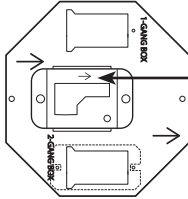

NOTE: Installation template to stay permanently attached to wall or ceiling.

WARNING: Ground fixture in accordance with local and national electrical codes. Failure to do so may result in serious personal injury. Fixture Installations should ONLY be done by a qualified licensed electrical professional.

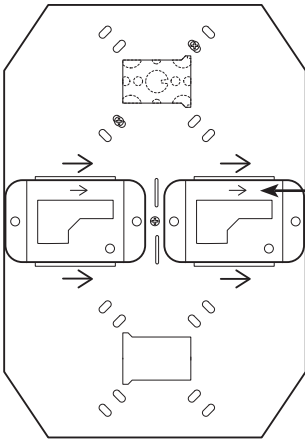

2) Fasten Mounting Brackets over template and into structure. Make sure brackets are securely fastened structure. These are load-bearing.

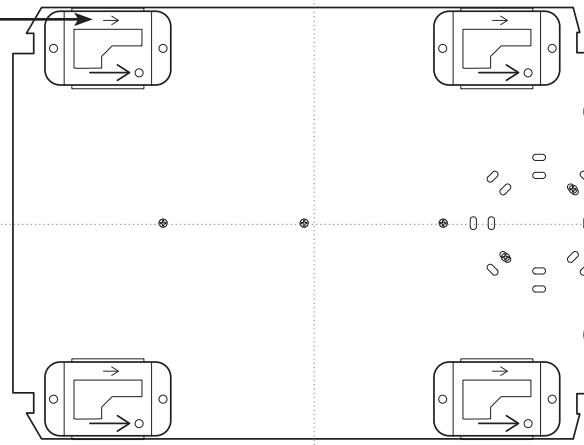

12" MOUNTING PLAN:

18" & 24" MOUNTING PLAN:

36" & 48" MOUNTING PLAN:

Make sure arrows on installation template and mounting brackets point in the same direction
Mounting Screws (by others)

WARNING: Ground fixture in accordance with local and national electrical codes. Failure to do so may result in serious personal injury. Fixture Installations should ONLY be done by a qualified licensed electrical professional.

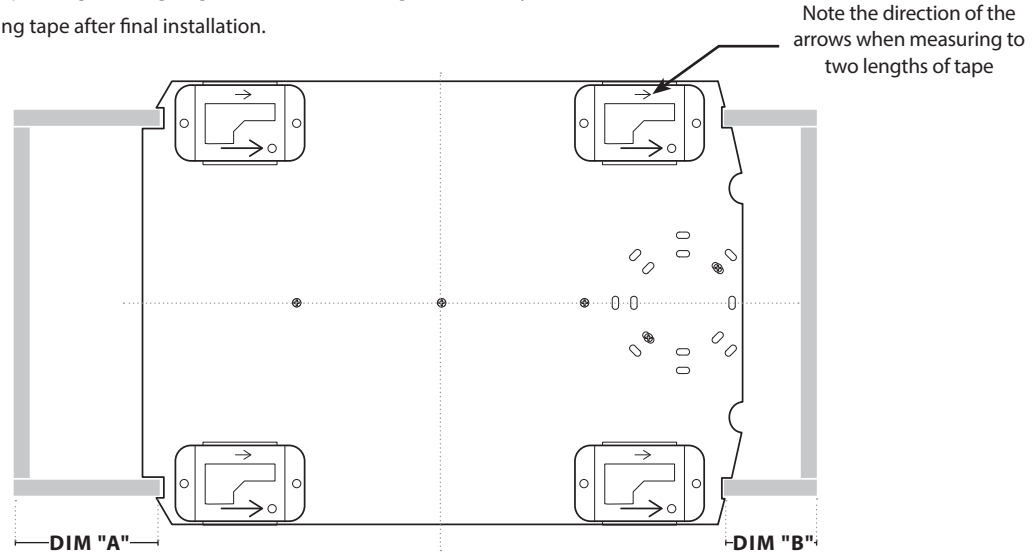

THE NEXT TWO STEPS ONLY APPLY TO 36" & 48" FIXTURES. IF INSTALLING AN 18" OR 24" FIXTURE PROCEED TO STEP 5.

3)

Apply masking tape as shown. This will help to position the fixture during final installation. Without the masking tape as a guide, aligning fixture with mounting brackets may be difficult.

NOTE: Remove masking tape after final installation.

	ROUND		SQUARE	
	Soft	Hard	Soft	Hard
36"	10¼"	9¾"	10¼"	9¾"
48"	15½"	16"	16¼"	15¾"

	ROUND		SQUARE	
	Soft	Hard	Soft	Hard
36"	7⅝"	7⅞"	7⅝"	7⅞"
48"	12⅞"	13⅜"	13⅞"	13⅝"

4)

Apply masking tape on 36" & 48" fixtures as shown below. This will help align fixture during final installation.

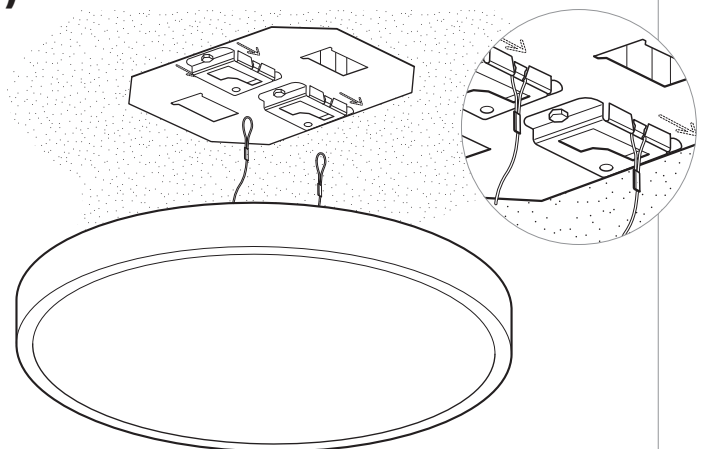

Masking tape placed in (4x) locations

Tape should be centered on slot marks on fixture top plate

5)

Hang fixture by hooking safety cables to mounting brackets.

WARNING: Ground fixture in accordance with local and national electrical codes. Failure to do so may result in serious personal injury. Fixture Installations should ONLY be done by a qualified licensed electrical professional.

PRUDENTIAL LTG.

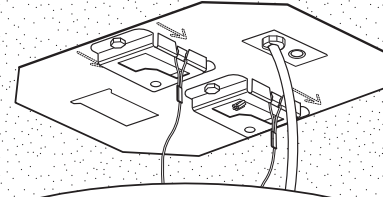

PRULITE.COM 213.746.0360

- 6)** Perform wire makeups between SJT cord(s) and J-Box. Route wires through Universal Access Plate as shown. Attach universal access plate with 6-32 x 1/4 phil pan head screw.

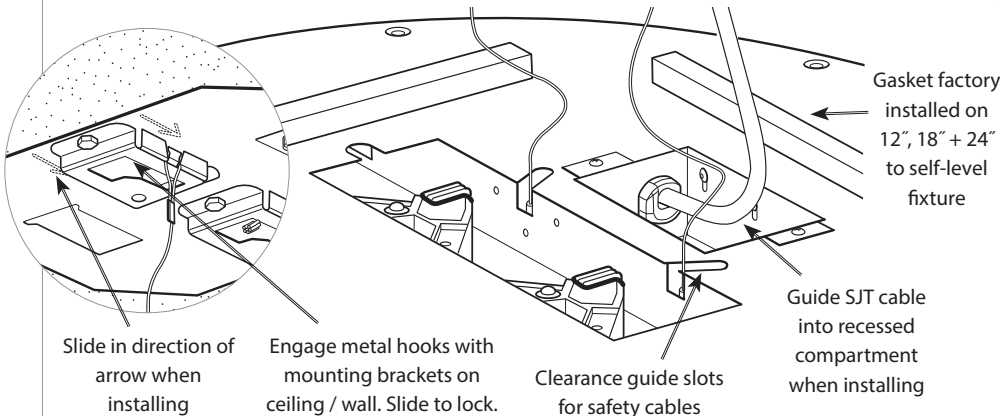

WIRING COLOR CODE (FIXTURE)	CORD
LINE VOLTAGE HOT : BLACK	BLACK
NEUTRAL : WHITE	WHITE
GROUND : GREEN	GREEN
CONSTANT OR SECOND CIRCUIT HOT (EM) : RED	RED
LOW VOLTAGE (+) : PURPLE	ORANGE
LOW VOLTAGE (-) : PINK	BLUE

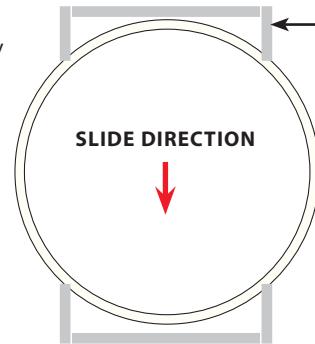

- 7)** Use Strain Relief to secure cord to universal access plate. Fixture can be powered up to test.

- 8)** Surface mount light fixture to wall or ceiling using “shift and lock” technique. Read all notes on diagram shown below before attempting surface mount.

For 36” & 48” fixtures, use masking tape guides to align fixture to mounting brackets.

WARNING: Ground fixture in accordance with local and national electrical codes. Failure to do so may result in serious personal injury. Fixture Installations should ONLY be done by a qualified licensed electrical professional.
