Continuous lines of light perfected for the outdoors.

01 Seamless Illumination

Create flawless, uninterrupted lines of light with continuous illumination designed for clean architectural aesthetics and superior outdoor performance.

02 Built for the Outdoors

Engineered to withstand demanding environments with IK08 impact protection, IP65/IP66 ratings, and temperature range from -30°C to 50°C.

03 Complete Family

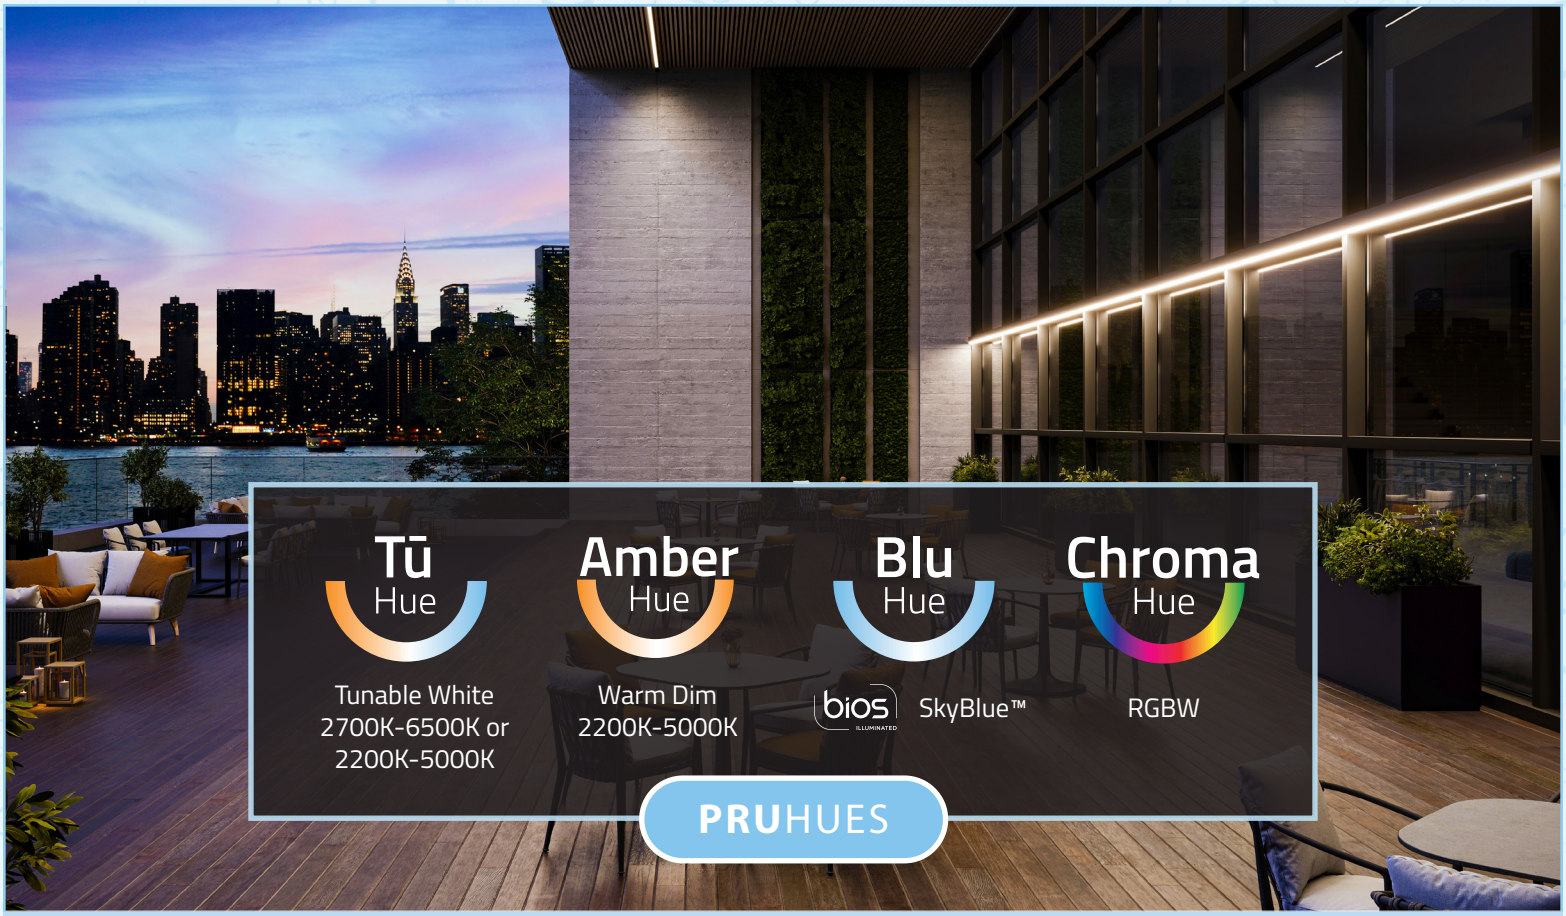

One complete platform. Available in 2″-3″-4″-5″ apertures in both Linear and Slot configurations to provide a consistent design language across every project.

04 Flexibility That Fits

Designed for versatile installation, Wet BionicPro integrates effortlessly into a wide range of outdoor applications while maintaining a sleek, architectural appearance.
